

SureSteel® Select.  
A very colourful approach to Tactiles.

# SureSteel® Select Tactiles.

## More than just a stunning new colour range.

### More Product Choice

CTA Australia Pty Ltd is the largest manufacturer, supplier and installer of Tactile Ground Surface Indicators. We pride ourselves in providing a complete solution and specialise in the design and manufacture of porcelain, rubber retro-fit, plastic and stainless steel tactile indicators. SureSteel® Select completes the CTA range of discrete architectural Tactile indicators making our product range second to none.

### More Creative Solutions

We recognise the need for creative architectural solutions. With the release of SureSteel® Select you now have the ability to introduce colour bringing pedestrian access areas to life.

### More Versatility

SureSteel® Select is available in a multitude of colours, all available in 316 marine grade stainless steel with either a coloured insert or peripheral skirt, giving product specifier's an extensive range of options. You now decide how bold.

### More Colour Choice

With 7 colours and 2 combinations, SureSteel® Select allows greater flexibility and creative control.

### More Stylish Solutions

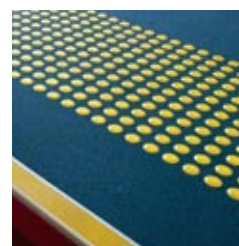

The selection of colour can promote an entire way of interpreting our reality and deciding which parts of it are worth observing, as well as to what extent the emotions are expressed. SureSteel® Select captures and defines our expressions and styles. Whether our intentions are serious and bold or timid, SureSteel® select enables architects and specifier's the ability to create ambience and style.

### More About Our Complete Care Program

As an additional service to our clients, CTA Australia provides a fully integrated maintenance program, which includes regular scheduled maintenance and replacement of components, where necessary. Please ask your CTA distributor for the CTA Complete Care maintenance program.

### More On Our Technical Specifications

SureSteel® Select Tactile ground Surface Indicators are designed to meet all aspects of the Australian Standards for Access and Mobility, the Building Codes of Australia and DDA compliance requirements. The SureSteel® Select design includes two patents which provide an R13 anti-slip rating, the highest in the industry and the Drill&Lock installation process.

# SureSteel® Select Tactiles.

## More than just a stunning new colour range.

### More About Simple Installation

SureSteel® Select can be installed over almost any substrate including concrete, bitumen, timber, ceramic tiles, pavers and carpet.

Installation can be completed by an accredited installer or CTA can also provide DIY kits and guide builders through the installation process, without jeopardising product warranty.

### More Confidence With SureSteel® Select

CTA Australia is represented in all Australian States and Territories and exports to the Middle East, Europe, the USA and Asia through an extensive network of distributors and licensees, all of which are backed by our product and installation guarantee.

Further, CTA is the only Tactile provider who can measure luminance contrast and provide specifier's peace of mind with a pre-installation conformance guarantee. Where else can you find so much choice, creative solutions, versatility, style, technical support, confidence and above all colour selection.
